

May 28, 1928.

Mr. Robert H. C. Marchant,  
Ioka, Utah.

Dear Mr. Marchant:

RE: SAND WASH DIST.

I am in receipt of request from the Sand Wash Company for your appointment as commissioner for the present season. They say that this request was also made by the Dry Gulch people.

Please let me know at once whether or not this appointment is for Sand Wash alone or to cover the other streams as was had last year. In any event please let me have an estimate of what you think the expenses for the coming season will be and, if more than Sand Wash is to be included, what other water users should be assessed.

I am not at all keen to make an appointment in view of the Cannon situation as it seems to me that this should be straightened out by a suit started by some other water user rather than have the commissioner put to all the bother had in the past. Your views as to this would also be appreciated.

Yours very truly,

State Engineer.
